### **Respiratory Protection Medical Evaluation Form For Employees**

#### Instructions

Any Harvard employee required to wear a respirator as part of their work or research must complete the Respiratory Protection Medical Evaluation Form or an equivalent form meeting the requirements of 29 CFR 1910.134, and have it reviewed by a physician or other licensed health care professional (**PLHCP**). Employees who voluntarily choose to wear a tight fitting respirator must also follow this procedure. Voluntary use of a filtering facepiece respirator does not require a medical evaluation.

Respirator fit-testing cannot be performed until required medical evaluation is completed. Instructions for filling out the form are provided below:

- Section I Request for Medical Evaluation should be filled out by the employee's supervisor or Respiratory Protection Coordinator.
- 2. **Section II Health Care Provider's Recommendations** should be left blank for the PLHCP to complete after reviewing the Section III Medical Questionnaire.
- 3. **Section III Medical Questionnaire** should be completed by the employee who will be wearing the respirator. As indicated in the Medical Questionnaire, this information is confidential and the supervisor or Respirator Protection Coordinator must tell the employee the procedure for submitting the Medical Evaluation Form confidentially to the appropriate PLHCP.

Some departments have employees enrolled in Occupational Health Programs and will use their services for conducting the Medical Evaluations. For those departments that do not have Occupational Health Programs, the following organizations will review the Medical Questionnaire:

#### Cambridge:

Mount Auburn Hospital Occupational Services 725 Concord Ave, Suite 5100 Cambridge, MA 02138 Phone: 617 354-0546

Dr. Peter Massicott Harvard University Health Services Medical Area Health Service 275 Longwood Avenue Boston, MA 02115 Phone: 617 432-1370 | Fax: 617 432-7120
