

EMPLOYEES MUST WASH HANDS

AFTER

- Touching Hair/Face
- Coughing/Sneezing
- Returning from Break
- Touching Phone
- Handling Doorknobs
- Shaking Hands

BEFORE

- Putting on Gloves
- Beginning New Task

*There are many times that food-handlers must wash their hands throughout the day; this poster highlights FDA 1999 Food Code requirements and Harvard University policies to properly wash hands after common sources of contamination.
