

**TOGETHER
WE CAN**

PROTECT OUR COMMUNITY TAKE STEPS TO PREVENT COVID-19

KEEP CURRENT WITH COVID-19 VACCINATION

If you are due for a booster, make a vaccine appointment with Harvard University Health Services (HUHS) or your local pharmacy.

CARRY A FACE MASK; CLINICAL SETTINGS REQUIRE MASKING

Face masks are now optional in most spaces, but they are required in HUHS and other clinical settings. We strongly encourage always carrying a mask and voluntarily masking in crowded, indoor settings.

STAY HOME IF SICK; TEST IF YOU HAVE SYMPTOMS OR A COVID-19 EXPOSURE

If you feel unwell, stay home and test yourself. Do not assume your symptoms are just a cold or allergies. If you have been exposed to COVID, test yourself, even if you do not have symptoms.

IF YOU TEST POSITIVE, ISOLATE AND FOLLOW CDC GUIDELINES

Abide by the isolation guidelines listed on [CDC.gov](https://www.cdc.gov). Notify close contacts and check-in with your health care provider if you are high risk. Members of the Harvard community should also report their positive test via Crimson Clear.

STAY INFORMED ABOUT COVID-19 TO HELP GUIDE BEHAVIOR

The COVID-19 outlook is continually evolving. Stay informed about the state of the virus by monitoring local COVID data as well as the COVID Data Tracker from the Centers for Disease Control and Prevention.
